Instructions

1. Score at 105mm and burnish fold on base card.
2. Adhere Basic Black layer to card base with dimensionals
3. Using your circle punch – punch out a circle from your post-it note – ensure that when you punch it's at the tacky side. Position punched out circle to the right of half way. Using your sponges and inks sponge in a circular motion around your post-it circle gradually increasing the colour. Start with Saffron, then curry, then pumpkin then Cajun. Go back over with the lighter colours for a smooth look.
4. When happy remove your post it circle and light sponge So Saffron to soften the 'sun'.
5. Stamp your silhouette stamp in Jet Black Stazon as shown. Stamp sentiment of choice at the bottom in Jet Black Stazon – my sentiment is from the Sheltering Tree Stamp Set
6. Adhere this layer to card using Dimensionals.
7. Clean Stamps and pack away.
